

Miles K. McDonald

Editor, Motion Graphics Artist, Color Specialist, Camera Operator

I have 9 years of technical experience editing impactful videos and creating modern and exciting motion graphics. I am also proficient with a multitude of cameras, mics and lights inside and outside the studio. However, it is my creativity that I rely on most. Generating new and exciting ideas and having the technical ability to bring those ideas to life is what I bring to the table.

Experience

12 2018 - **Production & Post Production Specialist**

Current
BMC Software

- Work as part of a four person team to create videos from start to finish, including: customer stories, internal & executive announcements, product release/update videos, social media posts, in studio green screen projects and live event broadcasts on LinkedIn
